

Call for Papers of 4th INTERNATIONAL CONFERENCE ON
ENERGY AND SUSTAINABILITY
(ENERGY AND SUSTAINABILITY 2013
19 - 21 June, 2013
Bucharest, Romania

SPECIAL SESSION
RECOVERY RESOURCES AND ENERGY FROM
WASTE BIOMASS AND WASTE COALS

Organized by Prof. Q. WANG of Saitama University, Japan

PROGRAM OF SPECIAL SESSION

Chairman: Q. WANG

- 1. Process analysis of the waste bamboo using in the solvent liquefaction**
Q. WANG* & Q. QIAO
- 2. Suppression method of condensation reaction during phenol liquefaction of woody material**
Q. WANG* & N. MITSUMURA
- 3. Study on heterogeneous reaction between tar and ash from waste biomass pyrolysis and gasification**
Q. WANG* & T. ENDO
- 4. Clarification of reaction at solution interface of pyrite during oil agglomeration for developing desulfurization and coal cleaning efficiency**
Q. WANG* & H. NIDA
- 5. Behavior of suspended particulate matter emitted from agricultural residue biomass of effective utilization**
Q. WANG* & S. ITOH

Remarks: Corresponding Author* & Presenter
